Examination Programme

English Examination Preparation
At Anglo-Continental, we have a long-established reputation for preparing students for internationally recognised English language examinations that are accepted by universities, employers and professional organisations around the world.

We offer expert preparation for leading examinations, including IELTS and Cambridge English Qualifications such as B2 First. Our experienced teachers provide focused guidance to help students achieve their academic, professional and personal goals.

Our examination preparation courses develop the language skills, techniques and confidence needed for success. Lessons focus on the specific requirements of each examination, with targeted practice in reading, writing, listening and speaking. Regular timed practice tests enable students to become familiar with examination conditions, helping them build confidence and perform at their best on the day.

Examination Practice + Intensive English Courses
These courses combine intensive English language study with specialist examination preparation, enabling students to improve their overall English while working towards their chosen qualification. Students receive **20 lessons per week** of intensive General English, designed to strengthen their language knowledge, fluency and communication skills. These are complemented by **10 lessons per week** dedicated to examination preparation for one of the following qualifications: IELTS, Cambridge B1 Preliminary, Cambridge B2 First and Cambridge C1 Advanced.

Specialist examination lessons familiarise students with the format and assessment criteria of their chosen examination while introducing effective techniques and strategies for answering each question type with confidence.

Official Examination Centre
Anglo-Continental is an official examination centre for IELTS, Trinity ISE Digital and GESE Digital, the Occupational English Test (OET) and TEAC. We are also a venue for Cambridge Digital exams, enabling students to prepare for and take a wide range of examinations in the same familiar learning environment.

Business and Specialised Programme

One-to-One Online Lessons
If you wish to take online lessons before or after completion of your course please refer to pages 28 - 29.

For many business and professional people, the ability to speak English is a necessity for success. At Anglo-Continental, we offer a choice of scheduled and specially arranged courses to meet this need.

Scheduled Courses

Our short business and specialised courses cover the following areas:

- English for Business
- English for Medical Professionals
- English for Medical Students
- English for Law

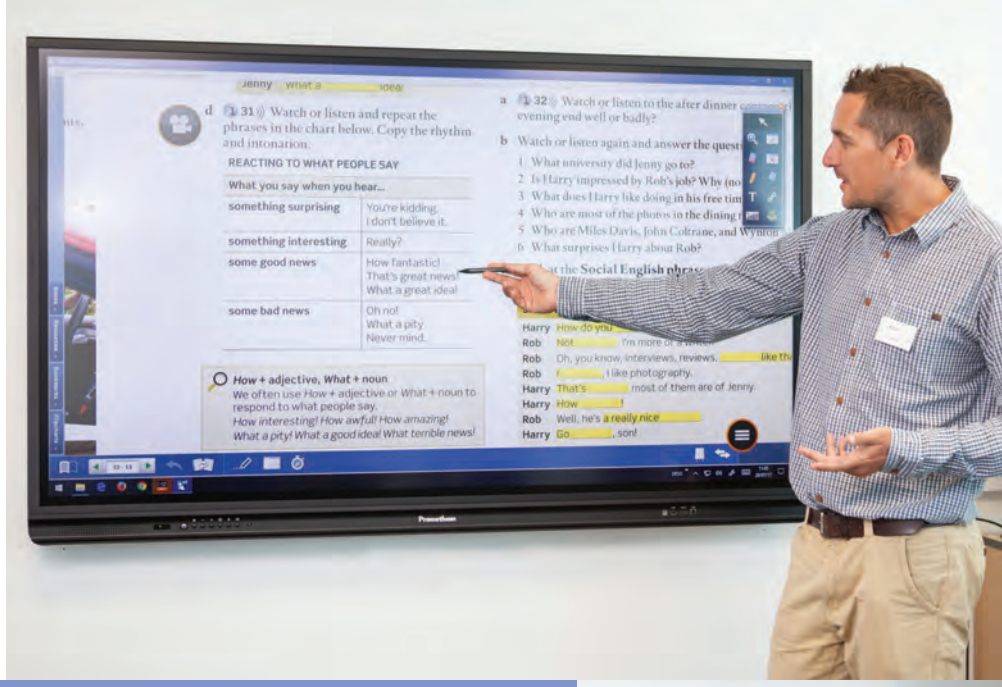

They are suitable for people at all levels of an organisation, from administrative staff to management, and for students preparing for professional employment. They combine 20 lessons of intensive general English tuition with 10 lessons each week developing the language of your chosen specialisation - arranged in independent modules so that you can enrol for a period of time convenient to you. The essential language used in these specialised areas is listed on page 18.

Business and Specialised Lessons

Your teachers, who have background knowledge of the subject of your choice, will use a wide variety of methods and materials, including authentic texts, documents and recorded material appropriate to your work. Role-play, student presentations, and guided and free discussion will improve your fluency and give you the realistic practice you need.

Additional Study

Homework (written assignments, preparation and revision) is an integral part of the course. We also recommend that some time should be devoted to additional study using the multi-media learning centre. Free wireless internet access is also available on campus.

Language Level for Entry

If you would like an indication of your English language level, you can take an online test before you enrol. This will be used as a guide and final acceptance is subject to our entry test held at the school. If you are not yet at the minimum level required, you will be transferred to the General English Programme.

Pre-Training Assessment

Final acceptance on the course is subject to our pre-training assessment. This is an assessment of the suitability of the course according to the background and qualifications of the client.

Great British Club 50+ Programme

More and more people in their fifties, sixties and beyond appreciate the attraction of a short, well-organised study programme - especially when it is combined with visiting and exploring new destinations. If you are fifty or over, this programme offers you the ideal opportunity to visit England for a stimulating and productive holiday.

Your classes

- You will study in a class where the minimum age is fifty, providing there are sufficient students at your level attending the course. In periods where we have lower student numbers, you will be taught in our General English Programme G-1.20, which has no upper age limit.
- The classroom approach is to create an informal atmosphere for purposeful learning, conducted at a pace suitable for those who may not have been in a classroom for many years.
- Our friendly and approachable teachers will make the classes interesting and enjoyable and will use modern teaching methods and materials to build your confidence in speaking English.
- Group activities will be arranged to improve your comprehension and communication skills, such as guided and free conversation practice, role play and discussion of aspects of British and international life, customs and culture.
- Learn in an international environment and make friends with people from many other countries.
- Free access to the multi-media learning centre.

Excursions, leisure activities

Outside the classroom, you will have the benefit of guided excursions to places of historical and cultural interest and of carefully arranged leisure activities. You will also have time for sightseeing and shopping on your own or with your new friends from the school.

Your accommodation

We normally provide accommodation with selected homestay families so that you will have no worries about your welfare and your meals. If you prefer to be independent, we can recommend alternative accommodation such as hotels or guest houses to meet your needs.

Programme Features

- Enjoyable English language tuition
- Relaxed conversation and discussion of current affairs and British life, customs and culture
- From Beginner to Advanced levels
- Special excursions and leisure activities
- Free access to the multi-media learning centre

Teacher Training Programme

Anglo-Continental offers teacher training courses designed to develop the professional knowledge, practical teaching skills and language awareness of teachers working with secondary and adult learners, as well as those considering a career in English language teaching.

Led by highly experienced ELT professionals, the course provides participants with the confidence, skills and up-to-date knowledge needed to succeed in today's teaching environment. Through practical workshops, collaborative learning and reflective practice, participants will explore effective approaches to language teaching while enhancing their own English language proficiency.

Course T-1.20

20 lessons per week of language teaching methodology and personal language development. Participants will experience a wide range of engaging teaching techniques designed to refresh and extend their classroom practice. The course explores current trends in English language teaching, including digital learning, learner autonomy, assessment, inclusive teaching practices and the effective use of technology in the classroom.

Recognising the growing importance of Artificial Intelligence (AI) in education, the programme includes practical sessions on AI literacy for teachers and learners. Participants will explore how AI tools can be used responsibly to support lesson planning, materials development, differentiated learning and language practice. The course encourages critical evaluation of AI-generated content and demonstrates how AI can enhance, rather than replace, effective teaching. While embracing new technologies, the course emphasises the continuing importance of Human Intelligence (HI) – the professional expertise, creativity, empathy, cultural awareness and interpersonal skills that remain at the heart of successful language teaching. Participants will consider how to combine the benefits of AI with the human qualities that foster meaningful communication, motivation and learning.

Language development activities will reflect the interests and professional needs of the group and will incorporate aspects of contemporary British life, culture and society.

Human Intelligence enhanced by Artifical Intelligence

Curtailment of a course
(Excluding courses with reduced fees)

If you shorten a course that is **more than eight weeks** long after it has started, you must give the school **four weeks' written notice**.

If you do not give enough notice, you must pay the course fees instead of notice, together with any accommodation charges due.

In all cases, a minimum of **eight weeks' course fees** is payable.

Students are responsible for arranging personal insurance to cover situations where they cannot attend or continue their course for medical or compassionate reasons (see **Liability and Insurance**).

Change of course
(Excluding courses with reduced fees)

If, after your course has started, you wish to transfer to a course of a lower specification, you must give the school two weeks' notice.

Any change is subject to the school's approval and must take place on a scheduled entry date for the new course.

If a refund is due, it will be issued as a credit that may be used:

- towards another course at Anglo-Continental taken within 12 months of the end of your revised course.

This credit cannot be transferred to another person and cannot be exchanged for cash.

Anglo-Continental reserves the right to withdraw a student from their course if:

- an incorrect declaration has been made; or
- information about the student's ability to participate in the course has not been fully or accurately disclosed before the course starts.

If a student is withdrawn for either of these reasons, no refund will be given.

English language level

Any information provided about your English language level before your arrival is for guidance only.

Your final English language level will be determined by our entry test on your first day.

If your English level does not meet the requirements of your chosen course, you will be transferred to a more suitable course.

Accommodation

The fee for the first week of homestay accommodation includes a **non-refundable administration charge** to cover the cost of selecting, reserving and arranging your accommodation.

If you wish to change or leave your accommodation, either on its own or because you are shortening your course, you must:

- give Anglo-Continental at least **two weeks' notice** before the proposed move date; and
- receive the school's approval before making any change.

If you do not give the required notice, accommodation fees will be charged in place of notice.

A charge of **£80** applies for each request to change homestay accommodation.

Accommodation fees remain payable during any period of absence from your accommodation while your course is in progress.

If you do not arrive on the scheduled arrival date at your accommodation, Anglo-Continental reserves the right to cancel your accommodation booking. If this happens, we may not be able to arrange alternative accommodation.
